Operation Worldview is a tool with immense potential to mobilize the people of God to reach the nations for Him and His Kingdom. Like the *Perspectives* course on which it is based, *Operation Worldview* is more than just a “missions” course. *Operation Worldview* asks the critical questions of who God really is, who we are, what God’s plan is and how we fit into it. Participants come away with a better understanding of what their purpose in life is.

We have had the privilege of attending three live presentations of *Operation Worldview*. We have seen worldviews radically changed. A close friend of ours who is also a pastor told us after one presentation “for the first time in my life I understand that God wants us to reach Jerusalem, Judea, Samaria, and the uttermost regions all at the same time. Even after Bible School, I never understood this before.” His church has never been the same.

As missions mobilizers, it is our dream to see 100,000 “world” Christians raised up in the state of Tennessee. The *Perspectives* course is a great tool – but it is only a starting point. For some time, we have been searching for a tool that our *Perspectives* graduates could use to take the *Perspectives* message – the message of God’s plans for the nations and our part in it back to their congregations and others within their spheres of influence. The new *Operation Worldview* video kit fits our needs well. We are encouraging all of our alumni to use it in their Sunday Schools, cell groups, and other small groups. The video format allows *Operation Worldview* to be spread out over eight or even sixteen sessions. The well prepared study guide and leader’s manual make it possible for just about anyone who is passionate about missions to lead a successful course.

If you are seriously interested in taking the message of what God is doing in the earth and how we, both individually and corporately can get involved to your congregation, take a close look at *Operation Worldview*. Your congregation will never be the same.
